

Confirm Spike-in

Description

A function used for calculating whether the expected spike-ins are confirmed and other spike-ins detected and their reads.

Usage

```
confirm_spikein3.0.1(spikein_dnanexus, spikein_ssss, spikein_sampleid)
```

Arguments

spikein_dnanexus	A count_summary.tsv file downloaded from DNAnexus
spikein_ssss	A csv file that contains information for the corresponding samples from SSSSS on Teams
spikein_sampleid	A csv file that contains only sample IDs for the corresponding samples from SSSSS on Teams
